

A wonderful holiday season from all of us at IEEP

Latest from IEEP

Climate mitigation potential of large-scale nature restoration in Europe

This study explores the climate mitigation potential of restoring the habitats protected under the EU Habitats Directive. [Read the study](#)

Podcast | COP26: Main overview and outcomes

In the fallout of COP26, our Head of UK Environmental Policy at IEEP gathered experts from IEEP's Think Sustainable Europe network for an overview of what COP26 meant for global action against climate change. [Listen to our podcast](#)

Online forum on digitalisation, sustainability and environmental justice

This online discussion forum will run until 28 January to gather digital and environmental CSOs to address the most burning issues related to digitalisation, sustainability and environmental justice. [More info](#)

EU Taxonomy on Sustainable Finance becomes law

The newly found political agreement represents a major achievement for the EU's sustainable finance agenda, yet political decisions and lack of transparency endanger the scientific basis on which the strength of the Taxonomy rests. [Read the statement](#)

CAP – The real test is about to come

With the agreement on the EU's Common Agricultural Policy just signed, IEEP explores what is left to play for, and where the funds should be directed to be in line with the EU Green Deal. [Read the blog](#)

Think Sustainable Europe

The idea generator behind the Think2030 platform, [Think Sustainable Europe](#) is a pan-European network of sustainability think tanks, led by IEEP, and including BC3, the Ecologic Institute, the Green Tank, IDDRI, IISD, SEI, WiseEuropa and TMG. The network aims to provide policymakers across the continent with sound, science-based analysis and recommendations.
