The transition toward cage-free farming in France

This report assesses the feasibility of transitioning towards cage-free farming in France, considering the costs which are associated with the transition and the opportunity for the French market. [Read the report](#)

Nuclear and gas – not yet ready for the sustainable finance taxonomy

IEEP's Ben Allen gives his account of the discussion on the Commission's proposal of a Delegated Act to the EU Taxonomy, which would see nuclear power and fossil gas eligible for sustainable finance. [Read the blog](#)

The time has come for a Just Transition in agriculture

David Baldock, one of the authors of the report mentioned above, looks at how the just transition can be successfully applied to the agriculture and land use policies in Europe. [Read the blog](#)

How can taxes and other economic instruments help to make polluters pay?

This report finds that EU polluters are not paying for most of the environmental damage they cause, and explores how taxes and other economic instruments could help to better apply the polluter pays principle. [Read the report](#)

Think Sustainable Europe

The idea generator behind the Think2030 platform, [Think Sustainable Europe](#) (TSE) is a pan-European network of sustainability think tanks, led by IEEP, and including BC3, the Ecologic Institute, the Green Tank, IDDRI, IISD, SEI, WiseEuropa and TMG. The network aims to provide policymakers across the continent with sound, science-based analysis and recommendations.
