18.45 – 20.00	Networking cocktail <i>Participants are invited to join a networking drink.</i>

This event highlights the importance of evidence-informed policy designed by local authorities to deliver on urban climate objectives. The discussion will focus on the role that the rapidly developing area of data and data-driven applications is playing in helping achieve net zero and circular economy targets at local level in Europe.

The event will be the sister event of the one organised by IEEP UK for the London Climate Action Week (LCAW) in June 2023.

Should you have any questions about the event, please contact Elisa Decourcelle at edecourcelle@ieep.eu.
